Enrolment Overview

Enrolment Settings

Access your Enrolment Settings via **Settings > Enrolment Settings**

You can control all key Enrolment Settings here, including your embargo, general requirements, internal and external requirements and messages for all students.

***The embargo period allows you to lock your system so you can import internal students' grades and ensure they cannot log in and view them prior to results day. ***

When the embargo is in place, only Super Admin users will be able to log into the system by default. Go to **settings > school settings > users** to see who your Super Admin users are.

You can specify additional users as needed, if you need someone who is not a Super Admin to have access during the embargo.

Other staff and applicants will see the message displayed, notifying them of the inability to login.

8am onwards - all internal students across all regions can access their home school platform

10am onwards - all external students across all regions can access platforms of schools they do not attend

System Embargo Time

Prevent all applicants from all application forms from logging into the system during the following period. This is used to prevent applicants from logging in too early and seeing grades you have imported.

Message to show to applicants on the login page during the embargo period.

Please note, In preparation for enrolment day, student accounts have been deactivated and will be reactivated on Thursday 25th August until 8.30am.
Please refer to the school for the specific time.

Embargo Start Time

2022 ▾ January ▾ 1 ▾ — 07 ▾ : 00 ▾

Embargo End Time

2022 ▾ January ▾ 1 ▾ — 08 ▾ : 45 ▾

Please select which staff members can access the system during embargo time.

- ☐ All staff users
☒ Specific staff users

admin@aplica.com

Save

You can then set the **Student Grade** settings:

Student grades ⓘ

Prevent internal students from editing and adding grades on the education step (applies to the enrolment form)

☐

Minimum number of qualifications

Allow exam results upload button

Internal External

☒ ☒

Exam Result attachment is required when on Enrolment form

Internal External

☐ ☐

If you are importing the **achieved results** of your **internal students**, you can then prevent them from editing their own grades by locking them on the enrolment form (you will know their grades are correct if you import them in, so you don't want students being able to alter them!)

Set the **minimum number of qualifications** a student must have achieved and listed on their form, as well as allowing them to upload a copy of their results slip. **You can enforce an upload for your external applicants** (and internal if you like!) so you can cross-reference what they say they have achieved versus what is written on their statement of results.

You can activate this setting to change the messaging a student sees when they log in, from the standard welcome message to enrolment-specific information:

Student Home page ⓘ

Change messages on the homepage to enrolment message:

You can set the messaging at the bottom of the page, like so:

Instruction box

This will show as a pop-up when they log in on results day

Edit note

Message on student's enrolment page

This will be displayed in place of the normal welcome message on the student homepage

Edit note

Message after enrolment finished

This will show as a pop-up once a student has clicked to submit their completed enrolment form

Edit note

You can restrict the **courses** a student is able to select, based on the **requirements** you have set in your specific requirements area and you can also prevent teachers from enrolling students into courses for which they do not qualify.

Entry Requirements Settings

Restrict student course selection by entry requirements

Internal External

Restrict enrolment by teachers by entry requirements

Internal External

Not qualified

Sociology A Level (Block B)

Maths (Block C)

Staff will see a “Not Qualified” message next to the courses which a student does not meet the entry requirements for.

Entry Requirements Settings

Restrict student course selection by entry requirements

To use requirements to **colour-code students** in the Details to be Checked area, the above setting needs to be **OFF**. In details to be checked, you will then see the students in a list format, and their **tiles will be coloured according to their subject choices and achieved grades**. This is useful if you will be making case-by-case decisions about whether or not to allow someone onto a course.

Here is a [guide](#) to the colour settings.

The screenshot shows the 'Year 12 Admissions Admissions Y...' interface. The 'Enrolment' section is active, with the 'Details to be checked' tab selected. The interface displays a list of students with their names, submission dates, and external scores. A red arrow points to the '219' student count indicator in the left sidebar.

Enrolment Form Subjects		Sociology A Level

The **Waiting List Management** tool lets you control who can **accept or decline students who are on the waiting list for specific subjects.** .

Application Form Subjects	Confirm Subjects	Add to Waiting List
Spanish A Level (Block A) Not qualified	BTEC Science	Spanish A Level Accept Requirements Spanish: 6
Sociology A Level (Block B)	+ Maths	Select a Course
Maths (Block C)	+ Politics A Level	Select a Course
Enrolment Form Subjects	Sociology A Level	Accepted
	Select a Course	+ BTEC Science

You may choose that all staff can have this power, or might choose to restrict access to this. If the latter, you can set a list of staff who will have the permission to do so.

All staff can add students to the waiting list; this setting controls who can then make the decisions about whether to approve or decline their places.

Waiting list management

Decide who is able to approve or decline a waiting list request. Please note regardless of the setting here, all staff users are able to add students to a waiting list.

☐ All Staff users

☒ Specific Staff users

Accessing your Test System

At the bottom of the page, you will see the option to create your **Enrolment Test System**:

Create your Enrolment Test System

The test enrolment system is a powerful tool to help you prepare for enrolment day and experiment with different configurations.

When you create your test system, it will be an exact replica of your actual system at the time it was copied.
It can take upto 10 minutes for the copy system to be created.

When logging in, the test enrolment system will be clearly identified as a test system, and all email sending will be disabled to prevent accidental contact with students and parents.

Copy direction:

Live System → Enrolment Test System

Create test enrolment system

You can use your test system to try out different settings and configurations, and then transfer the changes back to your live system once you are happy with the setup - [here's](#) the guide to creating your test system.

[These](#) are some common uses of the Test System and things you can try - we encourage you to do as much testing as possible!

Once you have completed your testing, you can sync settings back to your live site. [Here](#) is the guide to that process.

Here's a [video](#) on the process of setting up and syncing your test system!

You can use your **subject summary** to view all students on the waiting list and enrolled, per subject. You'll see your subject summary table on your main dashboard.

Customising your Enrolment Form

Access your Enrolment Form via
Settings > Application Form.

The Enrolment Form begins as a clone of your Application Form, or as a clone of last year's Enrolment Form, but it is **distinct** - you can have different fields, sections and steps active in one and not the other.

You can click to sync the form, if you want the questions and settings to match one another.

Phase: Application Form

Sort Steps

+ New Step

Step Name	Internal	External	Visible on Student Profile ⓘ	Actions
Step 1: Student Basic Details	☐	☐	☐	✎ ⚙
Step 2: Parent/Carer Details Please list parent or carers in order of priority, starting with the contact that should be contacted first in the event of an emergency	☒	☒	☒	✎ ⚙
Step 3: Support Information	☒	☒	☒	✎ ⚙
Step 4: Agreement	☒	☒	☒	✎ ⚙
Step 5: Religion	☐	☐	☐	✎ ⚙
Step 6: Additional Information	☒	☒	☒	✎ ⚙

Sort Steps

+ New Step

Step Name	Internal	External	Visible on Student Profile ⓘ	Actions
-----------	----------	----------	------------------------------	---------

Phase: Enrolment Form ⓘ

Last synced with Application Form: 25/05/2022 02:14PM 

The date of your last sync will be recorded here

Sort Steps

+ New Step

Step Name	Internal	External	Visible on Student Profile ⓘ	Actions
Step 1: Student Basic Details	☐	☐	☐	✎ ⚙
Step 2: Parent/Carer Details Please list parent or carers in order of priority, starting with the contact that should be contacted first in the event of an emergency	☒	☒	☒	✎ ⚙
Step 3: Support Information	☒	☒	☒	✎ ⚙
Step 4: Agreement	☒	☒	☒	✎ ⚙

You may choose to turn some steps off at enrolment - some schools like to make enrolment as quick and easy as possible for students, so turn off steps that don't need reconfirming on results day (things like parent/carer details, additional information and support information are unlikely to have changed since the students applied).

Step Name	Internal	External	Visible on Student Profile ⓘ	Actions
Step 1: Student Basic Details	Blue means it is on		☐	 
Step 2: Parent/Carer Details Please list parent or carers in order of priority, starting with the contact that should be contacted first in the event of an emergency	☒	☒	☒	 
Step 3: Support Information	☒	☒	☒	 
Step 4: Religion	☐	☐	☐	 
Step 5: Additional Information	☒	☐	☒	 
Step 6: Education	☒	☒	☒	 
Step 7: Courses	☐	☐	☐	 

To make enrolment as efficient as possible, the key steps we would suggest having active are: **Basic Details, Education and Courses**. *Please note that the **Basic Details** step is always switched on by default*

You can customise your form by following the guidance [here](#)

Check you are happy with how the form looks by using your **Preview Application Forms** button within any step of the Enrolment Form:

The screenshot shows the 'Student Basic Details' configuration page. On the left is a sidebar with icons for users, messages, and documents. The main header shows the breadcrumb 'Settings / Student Application Form / Student Basic Details' and the title 'Student Basic Details'. Below the title is a list of sections: 'Student Basic Details', 'Student Current Address', 'Student Contact Details', 'Student Background Information', and 'SIMS User Defined Fields'. The 'Student Basic Details' section is selected. On the right, there are three buttons: 'Pop-up (OFF)', 'Customise Sections', and 'Preview Application Forms'. A red arrow points to the 'Preview Application Forms' button. Below these buttons is a table of questions.

Check your **Specific Requirements** if applicable. You need to ensure these are set correctly if you are relying upon them to either prevent applicants from choosing certain courses, or accurately colour-code students who do not meet the requirements.

You can set requirements to be **general** (for example, the need to have a Grade 5 in Maths and English Language in order to study any course) as well as **specific** (for example, the need to have a Grade 7 in Maths in order to study A Level Further Maths).

Requirements can be found in **Settings > Subject Options > Specific Requirements**.

Here is a detailed [guide](#) to setting requirements, with examples.

Here is a sample message you could use to build your own:

Dear {{STUDENT_FIRST_NAME}} {{STUDENT_LAST_NAME}}

Thank you for applying to our Sixth Form and good luck for your GCSE Results!

We would like to invite you to log into your application on Thursday 12 August from 9.00AM to complete our enrolment process. You will need to follow the enrolment form through to completion, making sure to do the following:

1. Check your application form information and update anything which is incorrect
2. Update your grades from Predicted to Achieved
3. Upload evidence of your Achieved Grades (take a picture with your phone and upload it onto the enrolment form)
4. Confirm the courses you wish to study

Please note: your place will not be confirmed until you have submitted your form and we have emailed you to confirm your enrolment status.

Good luck!

Key information to include in your email:

- The dates and times of your embargo (students won't be able to log in when the embargo is in place)
- The procedure for your day - do you need to see students in person? At what time and where? Do they need to bring anything with them?
- What they need to complete on their Admissions+ profile. Do you need them to upload a copy of their results? Will they need to answer any additional questions?
- What to do post-enrolment. When is their first day in school and what do they need to have with them?

Save your template and then navigate to your main dashboard in order to send it.

1. Select the group you want to send it to: Completed Applications? Offer Accepted? Interview Completed?

The screenshot shows the 'Overview' tab of a system. At the top, there are navigation links: Overview, Reports (marked as NEW), Recent Activities, Application Groups, Offers, Subjects Summary, and Tim. Below these is a 'Tiles' section with two main tiles. The first tile is red and labeled 'Registered Students' with a person icon and the number '9'. The second tile is green and labeled 'Applications Completed' with a checkmark icon and the number '3'.

2. Select the students using the checkbox on the top left of the table and then click **communications > send email**.

The screenshot shows the 'Advanced Filters' section of a system. At the top, there are several buttons: Change Application Status, Make Offer, Change Offer Status, Change Enrolment Status, Change Internal Status, Change Phase Status, Add to group, Remove from group, Communications, and Reset Password. Below these are more buttons: Change Colour, Bulk Update, Add to interview, Export To PDF, Confirm Account, and Steps status. A yellow arrow points to the 'Communications' button, which has a dropdown menu open showing options: Send Email, Send SMS, Send Reference Requests, Send Custom Email to Referee, Send Notification, Send Student Welcome Email, and Send Parent Welcome Email. The 'Send Email' option is highlighted with a yellow box. Below the buttons is a table with columns: ID, Student Code, First Name, Last Name, Birthday, Gender, Email/Username, Current School, and Submitted. The table shows 3 rows of data. A yellow arrow points to the checkbox in the first row of the table, which is checked. The table is titled 'Displaying 3 students 3 rows selected' and 'Show 10 entries'.

Installing & Setting Up your Enrolment App

To ensure we have a robust Plan B in place for Results Day, you will have access to an **Enrolment App** which works **offline** - note, this **only works on Windows OS**.

You will be able to download and install this App [here](#)

The App will contain all of your applicants' data so you and your colleagues can continue to enrol students offline, in the event of any issues accessing your main A+ system on the day.

Every member of staff involved in enrolling students will need to have the App installed on their machine.

Plan A is to use your normal A+ system, online - the App is a backup (although some schools opted to use the App as plan A last year and reported that this worked well - up to you!)

You can view our Enrolment App training recording and slides on our Knowledge Base, [here](#).

FAQs and Troubleshooting

Each year, we encounter questions from schools and try to address them for the next cycle!

Here are the [Frequently Asked Questions](#) we encountered.

These are some tips for [troubleshooting](#) things you encounter within your system.

We hope these are helpful - don't forget you can always call us for any support: **020 8762 0882**

Bursary Applications

Enrolment means the beginning of a new cycle, and a new round of Bursary applications - how do you manage yours?

What's included?

Administering the post-16 bursary for 6th Form and College students is very time-consuming. Does your school need help with the following?

- ⇒ Managing applications for bursaries
- ⇒ Checking eligibility
- ⇒ Processing multiple receipts
- ⇒ Having to authorise bursary payments
- ⇒ Communicating with the finance team
- ⇒ Keeping track of payments

This can all be a huge task! Allow AppliCAA to help by signing up for Bursary16+.

Not got B16+ yet but you're interested?
