

Data transfer

Exporting applicant and contact data to Arbor

Data is moved into Arbor from Admissions+ using the Data area of your platform; this guide covers the steps.

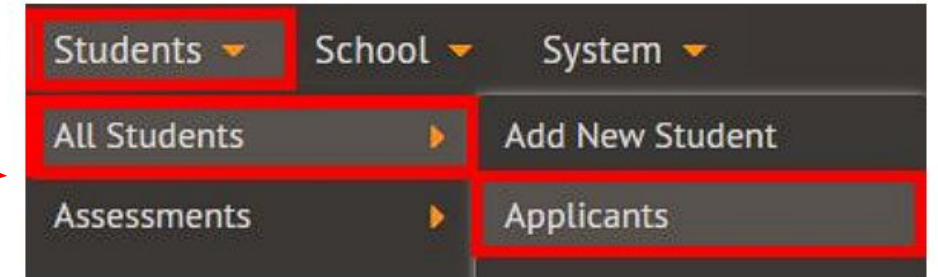

Prior to being able to export data into Arbor, you need to ensure you have created a **pre-admissions group in Arbor** to receive the new applicants into.

To cancel an Export that has already started, please contact Support for assistance.

Create an Intake Season in Arbor

1. Click **Students > All Students > Applicants**

If you do not see the Admissions options in your MIS you should contact your MIS Support Provider for assistance.

2. Click **Add**

3. Add to your Intake Season the following:

Academic Year (the fields **Start date** and **End date** will auto complete) If you are unable to select the required **Academic Year** you will need to add it first in your MIS by navigating to **School** → **School Structures** → **Academic Years**.

Intake season name

Published admissions number (optional)

Target application number (optional)

4. Click **Create Intake Season**

Create Intake Season	
Academic Year*	2021/2022
Intake season name*	Year 7 2021/22
Start date	1st Sep 2021
End date	31st Aug 2022
Published admissions number	150
Target application number	450
<input type="button" value="Cancel"/> <input type="button" value="Create Intake Season"/>	

Enrolling students to be exported

1. When your students are ready to be exported to your MIS they should be enrolled in Admissions+.

Student Profile Method
Bulk Student Selection Method

2. For Sixth Form students when they are put on their Courses their enrolment status will change to enrolled.

3. The Student Profile and Bulk Student Selection methods can also be used to enrol Sixth Form students if necessary.

Close Update

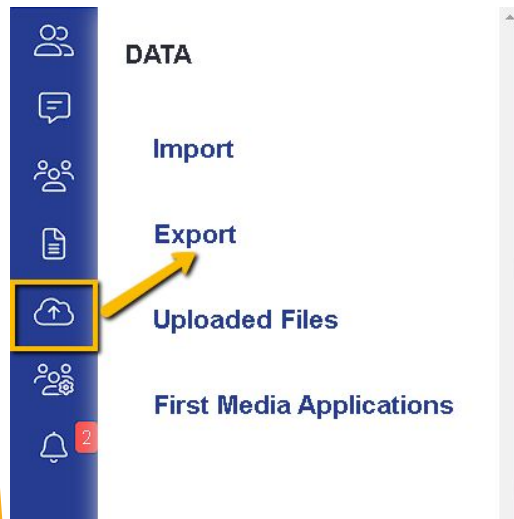

Exporting data into Arbor

Go to **Data > Export**

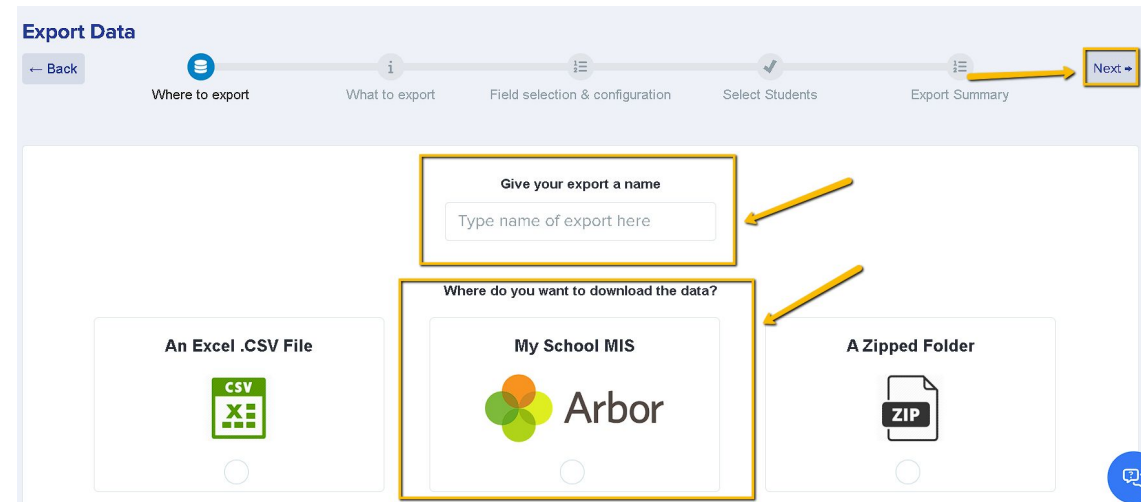

Click on **Start an Export** at the top right

Give your export a name then select **Arbor**

Click on **Next**

Start an Export

Exporting data into Arbor

You will then select **Students** then click **Next**

Then on the next step you will need to:

Select **Intake Season** e.g Reception 2021/22

Select **Intake Group** e.g. Intake Group 1

Select **Applicant Bucket** e.g. Applicant Bucket 1

Select **Academic Level** e.g. Reception 2021/22

There are additional Export Options available to select

The Data Mapping options will be preselected and now include **User Defined Fields**.

After that, click on **Next**.

The screenshot shows a progress bar at the top with four steps: 'Where to export', 'What to export', 'Data Mapping', and 'Select Student'. The 'What to export' step is currently active. Below the progress bar, the question 'What would you like to export?' is displayed. There are two options: 'Students' (with a group of people icon) and 'Student Classes' (with a graduation cap icon). A red arrow points from the 'Students' option to the 'Next' button in the top right corner of the interface.

This screenshot shows the configuration options for the export. It is titled 'SELECT ARBOR INTAKE SEASON, INTAKE GROUP, APPLICANT BUCKET, ACADEMIC LEVEL'. There are four dropdown menus, each with a red border and a close button (x):
1. Intake Season*: Reception Intake 2021 -
2. Intake Season Group: Intake Group 1 - 2022-06-01
3. Applicant Bucket: Application Bucket 1 - Reception Intake 2021
4. Academic Level: Reception - 2021/2022
Below these are 'EXPORT OPTIONS' with four checkboxes:
 Enable Address Update
 Export Declined Parental Consents
 Automatically assign a title to students (Ms/Mr depending on gender)?
 Remove student title on Arbor?

Next →

Exporting data into Arbor

On the next step, you may use the **Advanced Filters** and then **Select All** students for your export if required or you can select only the students you want to export.

Once done, click **Next**.

Go to Student Matching →

Click **Go to Student Matching** once all students have been checked.

Please note: If there are too many mismatched students you will need to contact Support or your Customer Success Manager, when this happens the message below will be displayed and you will not be able to continue with the export.

Arbor Student Mismatch Checking

ⓘ Potential mismatch students!

We have checked the data you are about to import, and multiple records in A+ seem to have changed significantly from when they were originally in your MIS. This appears to be the case with 14 records in this import... To prevent the possibility of corrupting the data in your MIS, we need you to contact technical support and/or your CSM, and they will be able to assist you in importing this data.

[Raise a Support ticket](#)

Exporting data into Arbor

In the Arbor Student Mapping screen you will need to **Resolve** any **Unresolved Matches**

Arbor Student Mapping What should I do with matching students?

Potential duplicates detected!
We have detected that **12 students** you are exporting may already exist in Arbor. Please review the rows below and let us know if we should create a new person, or match it to an existing person?
This typically takes around 3 minutes to check.

Export Admissions+ student as a new Arbor student. This keeps information from both Admissions+ student and Arbor student as separate records.

Skip this student for now and decide later.

11 / 12 Resolved Confirm & Next

Next →

Select the **Merge to Arbor** student option to merge them with the selected student, there maybe more than one student displayed to select.

Select the **Export as new student** option to export them as a new Arbor student.

Select the **Skip this student** option to not export them.

Click **Confirm & Next** which will show the next student.

Click on **Next**.

Exporting data into Arbor

On the Arbor Contact Mapping step existing Arbor contacts will be displayed if they match contacts in Admissions+. Select New Contact if they are not an existing contact in your MIS or Skip Contact if they should not be transferred.

Contacts are matched using the following rules:

- The system looks through existing Arbor contacts, and finds any one who matches the name, title, email and postcode of the person on Admissions+
- Matching people are listed as 'Potential Matches'

2. Click Next.

A screenshot of the "ARBOR CONTACT MAPPING" interface. At the top, a red arrow points to the title "ARBOR CONTACT MAPPING". Below it, a section titled "Potential Matches" contains a yellow banner with the text: "Admissions+ has identified several individuals in Arbor that might be a match for the people you are trying to export. Please review them below and for each potential match, please indicate which individual should be matched." The main area is split into two columns: "A+ Contact" and "Arbor Contact". In the "A+ Contact" column, there is a progress bar showing "4 / 4" and "100%". Below it, a contact entry for "Mrs Lily Plaine" is shown with details: "0888888888", "HYDE Cheshire, SK14 9DT", and "Carer of Happy Test Br1". In the "Arbor Contact" column, two potential matches are listed. The first match, "Mrs Lily Plaine", has a blue header, a blue radio button, and a green progress bar. The second match, also "Mrs Lily Plaine", has a white header, a white radio button, and an orange progress bar. At the bottom, there are two radio buttons: "New Contact" and "Skip Contact". Red arrows point from the "New Contact" and "Skip Contact" buttons back to the "A+ Contact" column.

Match To - links the Admissions+ contact to an existing Arbor contact, saves the Arbor Contact Id to Admissions+ and updates the available data from Admissions+ to the Arbor contact (see the data table for import rules)

New Contact - creates a new person in Arbor

Skip Contact - does nothing, the contact is not imported

Export Report

Once the export process has finished click on the report to check your students exported successfully.

If there were any issues with the export you will see the reason in the **Arbor Notice** column for each student. In the example below the student exported successfully with no error.

#	View on A+ ↑↓	first_name ↑↓	last_name ↑↓	Arbor Notice ↑↓	View on Arbor ↑↓	Type ↑↓
